

2018 SESVanderHave Sugarbeet Varieties

Our seed research and innovations bring results to growers. Yep. It's a whole new leaf.

Best disease tolerance for targeted fields

SV 333

- Among top 10 in Rev/Acre 2017 OVT Commercial Trial
- Above average sugar
- Great Rhizoctonia tolerance
- Aph Specialty variety
- Excellent stability across locations

SV 351

- Excellent Rev/Acre
- Top performer in 2017 grower fields
- Excellent Cercospora and Rhizoctonia tolerance
- Aph Specialty variety
- Genetics contribute to quick emergence

SV 244

- Great Sugar/Ton with high yields providing optimum Rev/Acre
- Excellent disease package
 - Excellent Rhizoctonia and Cercospora tolerance
 - Handles most Fusarium pressure

- Tandem Technology® is bred into all SV varieties for maximum RZM protection
- Root Aphid gene is present in all SV varieties

Fungicide Pack

- 3 modes of action
- Contact & systemic control
- Maximum protection against Rhizoctonia & other soil-borne diseases
- Standard on all varieties!

Add NipsIt INSIDE for early season insect control

All around balance that can thrive anywhere

SV 266* **Newly Approved!*

- Excellent yields with high Sugar/Ton
- Excellent Rhizoctonia tolerance
- Very high genetic purity means low loss to molasses

SV 265* **Newly Approved!*

- Exceptional early emergence and vigor, fastest emerging this spring, with outstanding final stands
- Among top Rev/Acre varieties for 2018
- Excellent Rhizoc tolerance with good Aph tolerance
- High yield potential with above average sugar
- Provides consistent results across all areas

Potential to surge in Rev/acre on the right ground

SV268* **Newly Approved!*

- Excellent Rev/Acre
- Best balance of Rev/Acre and Rev/Ton
- Aph Specialty variety
